---

Since the beginning of this website, I developed a tool to help e-mail users who have lost their e-mail password to request a new password. With this service, users receive a new e-mail password instantly, after few months. I should clarify, before requesting a new password, users should already have requested for a new password some days ago. This is because we have to wait a few days for the new password to be sent to users' inbox. To request a new e-mail password you need to follow the instructions that appear below. Please read all the instructions to correctly request a new password. Create a new account on the service Click on the following link to create a new account on our service. Confirm the following e-mail address to receive the new password: \_\_\_\_\_ E-mail password change Using a new e-mail password If the old password has been changed, you will receive an e-mail with a link to open a new account. This account has the same name of your old account but a new password. After you open the link you will receive a new e-mail with the new password. To open your new account, please click on the link. Your old password has been changed, follow the instructions to reset your new password. E-mail password viewer Click on the following link to open your new account. To avoid forgetting the new password, I recommend you follow the instructions to request a new password. Mail password viewer Mail password change How to request a new password Mail password I have developed this service for those users who have lost their e-mail password. Now the service works in a website and it's under construction. The
